Descriptions:

PFS (2) #1-01: The Absalom Initiation (Levels 1-4)
A new era is beginning for the Pathfinder Society, with new recruits and new factions all excited to build connections and embark on grand adventures. The PCs are among these recruits invited to attend a welcoming party where they can meet both the old guard as well as the up-and-coming leaders. But the party’s not all talk; the PCs learn of four exciting escapades in Absalom, through which they can kick off their adventuring careers! This adventure’s individual missions include numerous variations that make each play-through exciting and different. Written by Lyz Liddell. Scenario Tags: Repeatable

PFS (2) 2e #1-02: The Mosquito Witch (Levels 1-4)
Decades ago, witnesses reported a fearsome cryptid outside of the quiet River Kingdoms town of Shimmerford. Dubbed the Mosquito Witch, it was rarely seen since and quickly became a beloved local legend that the town celebrates and promotes to attract visitors. But when recent attacks began savaging livestock and townsfolk alike, many have started believing the Mosquito Witch was real all along. The PCs travel to Shimmerford to unravel the cryptid mystery, but might they just become the witch’s next victim? Written by Eleanor Ferron. Scenario Tags: None

SFS #2-00: Fate of the Scoured God (Levels 1-2)
(Pregenerated Characters Available) Led by their divine herald, Dhurus, the jinsuls spent the last year converting their ancestral homeland into a war factory. No longer able to ignore the jinsul threat, the Starfinder Society and its allies undertake a final mission to end the menace. While failure could lead to the death of many, the true threat lies with Dhurus’ scheme to wake the hidden god of the Scoured Stars and dominate the known galaxy. Content in Fate of the Scoured Gods follows-up on the events of SFS #1-99: The Scoured Stars Invasion and SFS #1-39: The Herald’s War. Content in this scenario contributes to the ongoing goals of both Second Seekers factions and concludes the Year of the Scoured Stars. Written by Christopher Wasko.
Starfinder Society Roleplaying Guild Quest: Into the Unknown
A series of five Starfinder Quests designed for 1st-level characters. When a mysterious visitor comes to Absalom Station selling items belonging to a lost Starfinder, the Starfinder Society takes note. The PCs are dispatched to discover out how the recent arrival found these items, leading them on a series of quests beyond the Pact Worlds and into the stars. Into the Unknown includes five, 1-hour adventures that take the PCs from exploring Absalom Station, to partaking in starship combat, to exploring an alien world. The fifth adventure in the series provides a stunning conclusion that takes the PC's previous accomplishments into account for a climactic final showdown against an enemy starship.

Starfinder Society Roleplaying Guild Scenario #1-09: Live Exploration Extreme!
A Starfinder Society Scenario designed for levels 1–4. Although the Society was unaware of what existed within the false moon Salvation's End when it obtained exploration rights, Starfinders have since identified a vast, uncharted megacompex within. The Society's ready to launch its first major expedition into the interior, yet there is one slight complication: in order to fund its initial survey missions, the Society accepted a grant that requires this first mission be televised by an Eoxian reality show. What is already be a momentous mission for the Society is only exacerbated by the mandatory presence of an unliving camera crew—not to mention the interference of the live studio audience in orbit! Can the PCs uncover the secrets of Salvation's End while upholding the Society's publicity deal (perhaps becoming celebrities in the process)? Content in Live Exploration Extreme! is a continuation of the Starfinder Society special, Starfinder Society #1–00: Claim to Salvation.

Pathfinder Society Scenario #6–98: Serpents Rise
A Pathfinder Society Scenario designed for 7th-level pregenerated characters. Years of political maneuvering, espionage, smuggling, and diplomacy have set the stage for the Aspis Consortium's most ambitious attack on their Inner Sea rivals: the Pathfinder Society. All that remains are several key preparations that only an elite team of Aspis agents can arrange, and once the fireworks begin, these same agents must strike quickly and mercilessly to secure objectives—some shared and some connected to deeper plots—and escape without the Society being any the wiser. In this adventure the players portray agents of the Aspis Consortium using 7th-level pregenerated characters. The events in this story also connect to and expand upon those in Pathfinder Society Scenario #6-97: Siege of Serpents. Note: Serpents Rise is a limited release scenario. It may be run anywhere, but only by 4- or 5-star GMs.

Pathfinder Society Scenario #10-16: What the Helms Hide
A series of four quests designed for levels 1-5. Disagreements among the Pathfinders erupted into violence 300 years ago, spurriing the Society's leaders to don helms that hid their identities and protected them from assassins. These ten members of the Decemvirate have remained anonymous to this day, but a recent discovery may uncover new information about this dangerous part of the Society's history. With a unique window into the past, it falls to the PCs to identify these original leaders and the secrets they buried before donning the helms—in the process helping to unveil a hidden threat to the Society. What the Helms Hide includes four 1-hour adventures that send the PCs across the Inner Sea region to uncover the secretive Decemvirate's past. The series includes a finale adventure, but players can experience the other parts in any order.

Starfinder Society Roleplaying Guild Scenario #1-16: Dreaming of the Future
A series of four Starfinder Quests designed for levels 1–4. The Starfinder Society pursues the dream visions of a Liavaran dreamer, seeking information lost in a time before the Gap. Three broken fragments form the key to a forgotten repository of knowledge hidden within the Pact Worlds. It's up to the PCs to find these missing fragments and brave the dangerous reliquary to secure a new source of prescient knowledge for the Society. Dreaming of the Future includes four, 1-hour adventures that take the PCs into the asteroid field of the Diaspora and across the Pact Worlds of Aballon, Liava and Verces. Scenario Tags: Quest, Repeatable, Starship

Starfinder Society Roleplaying Guild Scenario #1-28: It Rests Beneath
A Starfinder Society Scenario designed for levels 1-4. Dispatched by the Wayfinders’ faction leader to a Near Space world, the PCs have orders to assist a local Starfinder research outpost. The outpost's head researcher sends the PCs on a mission to explore a strange calcified region, which soon reveals that there's more happening on this world than first appears. Scenario Tags: Faction (Wayfinders), Vehicle

Pathfinder Society Scenario #7–98: Serpents’ Ire
A Pathfinder Society Scenario designed for 8th-level pregenerated characters. A parasitic faction known as the Korholm Agenda has tried to corrupt the upstanding Aspis Consortium from the inside out, all in the vain pursuit of revenge and profit. Now one of the powerful Aspis Patrons has learned that the Korholm Agenda has siphoned the Consortium’s funding to build a base of operations in Nidal. This shall not stand. He has assembled a team of top agents—including both new faces and veterans of the attack on the Grand Lodge a year ago—to infiltrate the operation and shut it down by any means necessary. In this adventure the players portray agents of the Aspis Consortium using 8th-level pregenerated characters. Content in Serpents’ Ire also ties into a special metaplot element from Pathfinder Society Special #6-98: Serpents Rise. Players who have completed that special event are encouraged to take its chronicle sheet when playing this adventure. Note: Serpents’ Ire is a limited release scenario. It may be run anywhere, but only by 4- or 5-star GMs.

Pathfinder Society Quest: The Silverhex Chronicles
A series of six Quests designed for 1st-level characters. When the daring half-orc scholar Ulisha enrages a noble family in the River Kingdoms, she contacts the PCs with a special deal: she will sell them a unique and ancient druidic relic at a steep discount to secure the gold she needs to pay off her bounty. By the time the PCs arrive to meet her, she has gone into hiding. However, she has left behind a journal full of profitable leads as a sign of good faith. Can the PCs recover this hidden wealth and claim the powerful Silverhex before an assassin finds their friend? The Silverhex Chronicles includes six, 1-hour adventures that take the PCs to a graveyard in Gralton, a mist-choked forest in Ustalav, a brainwashed...
village in Razmiran, an ancient crash site in Numeria, and the perilous city of Daggermark. Experience the adventures in any order to create a unique story. These Quests are designed for play in Pathfinder Society Organized Play, but can easily be adapted for use with any world.
