COSPLAY RULES

Saluki Con is a family friendly event. We want to emphasize that Cosplay is not consent, so please be respectful to persons in costume and DO NOT TOUCH!

Please read through our costume and weapons regulations below.

COSTUME REGULATIONS

• Saluki Con is a family friendly event. Please use common sense, be considerate of other attendees and be aware of your surroundings.

• Cover your body parts. “No costume” is not a costume. “Paint” and/or “pasties” are not a costume, either. No intentional or unintentional “wardrobe malfunctions” are allowed. Please make sure your costume is properly constructed; this includes proper undergarments. If your costume is deemed to be too revealing or offensive, you will be asked to cover up or change.

• All military, law enforcement, and other emergency service costumes should be easily distinguishable from official uniforms.

• Roller blades, roller skates, and skateboards will not be allowed in the Student Center.

• Please, no signs offering services or making requests to be hugged or touched. We want everyone to feel comfortable.

• Service Animals are allowed, assuming they are wearing the proper identification and you pick up after them. Pets are NOT allowed inside the Student Center.

WEAPON REGULATIONS

No functional weapons are allowed at the Student Center.

Some simulated or costume weapons are allowed as a part of your costume, subject to prior approval by convention staff and compliance with the following:

• No costume weapons resembling a firearm will be allowed. This includes Blasters, Nerf guns or any items that fit a rifle or pistol profile.

• All costume weapons must be inspected at the entrance.

• Functional (real) arrows must have their tips removed and be bundled and zip-tied to a quiver.

• Any Cosplay item that has a metal or plastic blade are prohibited. Wooden swords and lightsabers are allowed.

• If you do not want to have your costume weapons inspected, or if you are not willing to comply with these policies, please do not bring your costume weapons to the Saluki Con.

Thank you for your understanding and cooperation to make the Saluki Con a safe and fun environment for everyone.

In “Descent” she played one of the Borg drones mentally damaged by Lore’s experimentation. On Deep Space 9, she could sometimes be seen in alien make-up in Quark’s and played several aliens such as an Antican. Cocco was one of several regular background performers from Star Trek: Deep Space Nine and Star Trek: Voyager who participated in the filming of the interactive movie Star Trek: Borg; she is most notably seen as a Starfleet science officer visible in the corridor aboard the USS Cheyenne at the start of the movie. Cathy Jackson

Cathy Jackson is a Midwestern Christian mother of three teenagers and a precocious eleven-year-old. Reading is a passion of hers, but she adores writing. It is Cathy’s goal as an author to write scenes that uplift and encourage along with making one feel the experience. She wants readers to finish the books feeling hope, love, and happiness. To date, the books she has published are inspirational (Christian) romances, but they have a contemporary romance feel to them.

Midwest Garrison

The Midwest Garrison is the Illinois chapter of The 501st Legion, a Star Wars Imperial costuming club. The 501st is dedicated to the movie-quality costumes of the “villains” of the Star Wars universe. The MWG provides a means for Star Wars fans to meet and network with each other to engage in the hobby of building and improving Imperial costumes from the Star Wars movies. All of our costumes are scratch-built or “fan-made,” whether through the arduous process of building molds and vacuum-forming, or assembling costumes from found objects.

Brad Moore

Brad Moore is a dedicated surrealist painter, who creates artwork for underground, heavy metal, and alternative record companies. Perhaps his most brilliant feat, however, was, on the day of his birth, to be delivered by none other than Dr. Chas. Cavaness, the man who brutally murdered his two sons, and the book; “Murder in Little Egypt” tells the tale. That book leaves out all the details featuring Brad Moore, however, and his years as a horror/gore comic book artist, his trials and tribulations with designs and art for film, and his now current employment as an illustrator for the heavy metal/psychedelic recording industry. When asked what he considers his greatest achievement, Moore often cites the exhibit he did, in 2006, with none other than H.R.Giger, the Swiss Surrealist who created the Xenomorph horrors for the ALIEN film series. That Exhibit was held in Switzerland, at Giger’s own castle, and is now a matter of record.
